Electronic Device* Policy

(updated 3.13.25)

Students may bring an electronic device* to Fitz Intermediate BUT, the device(s) must be turned off and in the students' backpack when on the Fitz campus. Students are only allowed to use an electronic device* with teacher/staff permission during instructional time for educational purposes. Families and students assume ALL responsibilities of electronic devices*. School officials are NOT liable for loss, damage, or theft of student electronic devices* that include AirPods and cell phones.

If a student chooses to violate this policy, the following progressive discipline steps will be applied:

- **1st offense:** confiscation of electronic device*, notice of violation to parent/guardian by teacher/staff where offense occurred, student pick up device in office after dismissal
- **2nd offense:** confiscation of electronic device*, notice of violation to parent/guardian by teacher/staff where offense occurred, parent pick up after dismissal, student assigned one hour of Falcon Recovery Time.
- **3rd offense:** confiscation of electronic device*, notification of violation to parent/guardian by teacher/staff where offense occurred, parent pick up of device in office after dismissal, student assigned one hour of Falcon Recovery Time, device may **NOT** be brought to campus

Subsequent offenses will follow progressive discipline on a case by case basis.

Updated policy aligns with the Garden Grove Unified School District Board of Education administrative regulation 5156.1 that states that *"Students in the Garden Grove Unified School District are prohibited from using, activating, or displaying electronic signaling devices while on school grounds, while attending school-sponsored activities, or while under the supervision and control of school district employees, except when the device is necessary due to a student's medical condition."*

Updated policy also aligns with California Education Code 48901.5

*Electronic devices include cell phones, AirPods, wireless headphones, cameras, and any portable electronic device.
